

PURCHASE OPTIONS

SMART Temps® Purchase Options

Whether temperature monitoring is deemed a capital or an operational expense, SMART Temps® can help meet your purchasing needs. The SMART Temps® system can be purchased through an equipment purchase or the license agreement. Each scenario is further explained below.

① Equipment Purchase

Purchase any combination of equipment, installation, or warranty options up front.

- Options:
- Shipping to each location/site (or central distribution center).
 - Equipment
 - NIST Traceable Documentation
 - 2 Year Calibration Certification
 - Installation (optional)
 - Monthly/Annual Monitoring*
 - SMART Assurance® Warranty (optional)*

*Reoccurring cost depending on contract terms.

② License Agreement

Allows company to monitor inventory through operational funds for each location/site.

- Includes:
- Zero Upfront Equipment Cost
 - 2 or 4 Year License Agreement Terms
 - Equipment Updated Every 2 Years
 - NIST Traceable Documentation
 - 2 Year Calibration Certification (No Cost)**
 - Monthly/Annual Monitoring*

*Reoccurring cost depending on contract terms.

**New calibrated equipment will be sent to each location/site (or central location) every two years at no additional cost.

Information Needed for Pricing

In order to provide an accurate quotation for temperature monitoring services, a few pieces of information are requested from your company.

Provide the following information:

- ① Number of Locations/Sites
- ② Number of Equipment Pieces to Monitor at each location (ex. 2, 3, 4 freezers/refrigerators or more)

30 Day Free Pilot Program

SMART Temps® offers a 30 day free pilot program. This allows a clinic to try the product out for a full month, giving you the confidence the SMART Temps® Temperature Management System is the right fit for you. Please contact SMART Temps® for more details.
